TAKING HOME CONTROL TO THE NEXT LEVEL

GENERAL

CONNECTING  
THE HOME

## NEW EVOLUTION IN HOME CONTROL

The award-winning Nevo family really delivers on the promise of easy remote control of the digital and connected home.

Nevo is universal remote control at its very best. Simplicity makes your life easier, and Nevo keeps it very simple indeed. Combining elegance with functionality and ultimate user-friendliness, Nevo gracefully renders all other controllers obsolete.

Built to evolve with the digital era, Nevo never goes out of date. While bringing a supreme control experience to your fingertips every day, Nevo will always be ready to adapt to new and future demands.

## CLOSE AND PERSONAL

It's clever, it's versatile, it's easy and it's good looking... Nevo sets new standards in universal home control. With this single remote in the palm of your hand, you master all functions in the digitally networked home.

View your holiday pictures on any screen in the home. Share the jewels of your music collection and send them through the best speakers in the house.

Or watch favourite movies on your HD television and surround sound system in the comfort of your living room.

Nevo takes remote control beyond home entertainment. Technology is everywhere it can make our life easier. Think housekeeping, safety and health care. Think enjoying life's little luxuries too.

For many, Nevo becomes a pleasant journey of discovery.

With this fully customizable house companion, you control not just audio and video, but almost any electrical device you want. Dimming the lights or closing the curtains, sprinkling the lawn or checking who's at the door: with Nevo, you're in full control.

NEVOS70 | ULTIMATE CONTROL

NEVOS70

NevoS70 delivers total Audio/Video and digital media control for the networked home. Featuring WiFi and a webbrowser, this remote is the pinnacle of our product range and offers unrivalled ease of use.

The elegant NevoS70 uses a 3.5 inch touch screen with razor sharp images and deep colours as the graphical user interface. Programmable keys give you one-touch access to multiple-step functions.

WiFi capability opens up a world of new possibilities. With NevoS70 and a wireless router, you can access and control music, pictures and movies anywhere. All available digital content is automatically located, displayed and streamed at your convenience.

NEVOS70 | UNPARALLELED POSSIBILITIES

WiFi to access digital content (music, pictures, and video) over the wireless home network

WiFi webbrowser for constant access to online weather, traffic and news information

WiFi allows access to IP equipment such as security cameras

Media management has never been more attractive than in the fully customizable NevoS70, which provides ultimate control over all devices and content with playful ease.

NevoS70 allows control of web-enabled devices and quick access to web-based news services with the latest headlines and information on traffic, weather, finance or sports.

With the help of IP cameras, your handheld screen can also be the monitor for the front door, or for keeping an eye on the children.

NevoS70 takes personalization to unprecedented levels. After the initial set-up and configuration, it will be hard to resist the many drag-and-drop options to really make this your personal remote control.

NEVOQ50 | INTUITIVE SIMPLICITY

NEVOQ50

NevoQ50 brings simplicity, economy and intelligence to digital home control. Comfortably operable with one hand, its stylish design and truly intuitive control makes it ideal for A/V and Home Theatre, and a real asset in the modern home.

NevoQ50 has direct IR and two-way RF control with Z-Wave technology. This greatly improves range and reliability, so your equipment can stay behind closed doors or even in another room.

With a 2.5 inch colour touch screen and 31 programmable hardkeys, NevoQ50 can be fully customized to your personal preferences. This remote simply adapts to the room you walk into, or to different users in the house.

NEVOCONNECT | VERSATILE BASE STATION

NEVO  
CONNECT

NEVO  
LINK

NEVOCONNECT NC-50

NEVOCONNECT

Naturally, both NevoS70 and NevoQ50 can easily be programmed for any new device. Macro synchronization and programming even allow for complete one-button control of multiple tasks, such as switching the lights off and on 'in tune' with the DVD-player.

As the remote control base station, NevoConnect NC-50 is the heart of your system, using two-way RF with Z-Wave technology for flawless

communications between all your devices. NevoConnect features six multi-purpose ports for IR control, serial control, voltage and video sensing, a 180-degree IR view and feedback LED's to show all port activity.

NEVOLINK

NevoLink is an intelligent and IP-addressable base station that enables full home control with NevoS70. Designed to send IR signals through the wired home network, NevoLink makes all connections for multi-room control of any device.

NevoLink allows NevoS70 to control virtually all devices, even if they are behind closed doors. It uses both internal and external IR-emitters and a

180-degree range for wide and targeted coverage. In conjunction with NevoStudio Pro, this IR-extender for the networked home features automatic discovery and system configuration, as well as easy IR code updates for new devices.

NEVO<sup>Q50</sup>

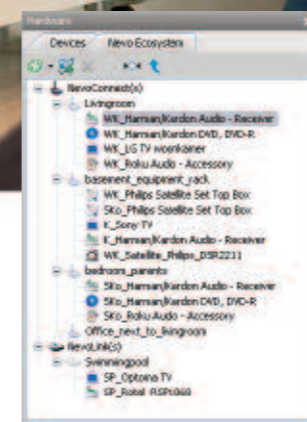

SOFTWARE

## NEVOSTUDIO PRO | HIGH-PERFORMANCE SOFTWARE

## NEVOSTUDIO PRO

NEVOSTUDIO PRO

**NEVO**  
STUDIO|PRO

The powerful NevoStudio Pro software really is the Nevo engine that enables complete customization and future-proofing of your remote. Maximizing speed and performance, the editing tools of NevoStudio Pro make personalization of the interface extremely easy.

NevoStudio Pro allows custom installers to quickly (re)program your Nevo controller and base station, including video and voltage sensing, precisely configured for your equipment and according to your personal wishes.

With extensive galleries, wizards, page templates and effortless drag-and-drop functionality, you can create or add your own control pages. Along with a wide range of new images, skins and key layouts, the latest software, codes and upgrades can be downloaded at [mynevo.com](http://mynevo.com).

*Wizards enable you to easily add or edit devices and automatically create control interfaces*

*Extremely intuitive interface includes drag and drop use of device commands, backgrounds, buttons, symbols, themes and even entire devices*

*SuperFast device Swap instantly replaces one device with another throughout an entire program file: every button, every macro.*

NEVO ACCESSORIES | FULL FUNCTIONALITY

NEVO ACCESSORIES

Nevo Serial Module

Nevo Video Sensor

Nevo IR Emitter

Nevo Voltage Sensor

NEVO ACCESSORIES

Even for the most demanding of digital consumers, the local dealer or custom installer has several accessories available to make the most of everything the Nevo family has to offer.

These original Nevo accessories send serial communication signals and IR signals to equipment behind closed doors, and can sense the voltage or video state of connected devices.
